"Only if I knew what was ahead of me, I could do better".Yes, we also feel the same way. We must explore the modern tech fields emerging in the world globally. So we bring you an amazing three days workshop on python. The classes will cover the beginning to the advanced versions of python. The workshop includes an interactive session with the mentor, group meetings, hands-on projects, and additional placement consultations with the instructor. The leetcoder and a great web developer Altamas Bari will be the mentor for this workshop. He has been offered multiple job opportunities from highly esteemed companies like Deloitte, Accolite Digital and Cognizant. On completion of these three days workshops, you will be offered a completion certificate, swags, and many more exciting things! So hurry up, grab your tickets quickly for a minimal rate of ₹ 249/- only. The sale has begun.
